ABOUT OUR STUDIO

DBR is a versatile interior design studio focused on designing and creating eclectic and personalised spaces that reflects the character of our clients. Headed by Razia Anis, Principal Architect, We specialise to create one-of-a-kind spaces. Our small team of enthusiastic and creative designers are always in the quest of creating masterpieces that accommodate and balance the client's needs as well as design practicality. Here's hoping for a bright adventure-filled future designing curated spaces for lovely clients!

MEET RAZIA

Hi, I'm Razia Anis, an Architect by profession with a Master's in Sustainable Design. Hailing from a family of successful entrepreneurs, starting my own design studio was always a dream come true.

I believe that every place holds a beautiful story behind it, a story that's intricately woven from the personalities of the people who occupy that space.

As an designer, I get to curate, capture and bring out the true essence of the space to light.

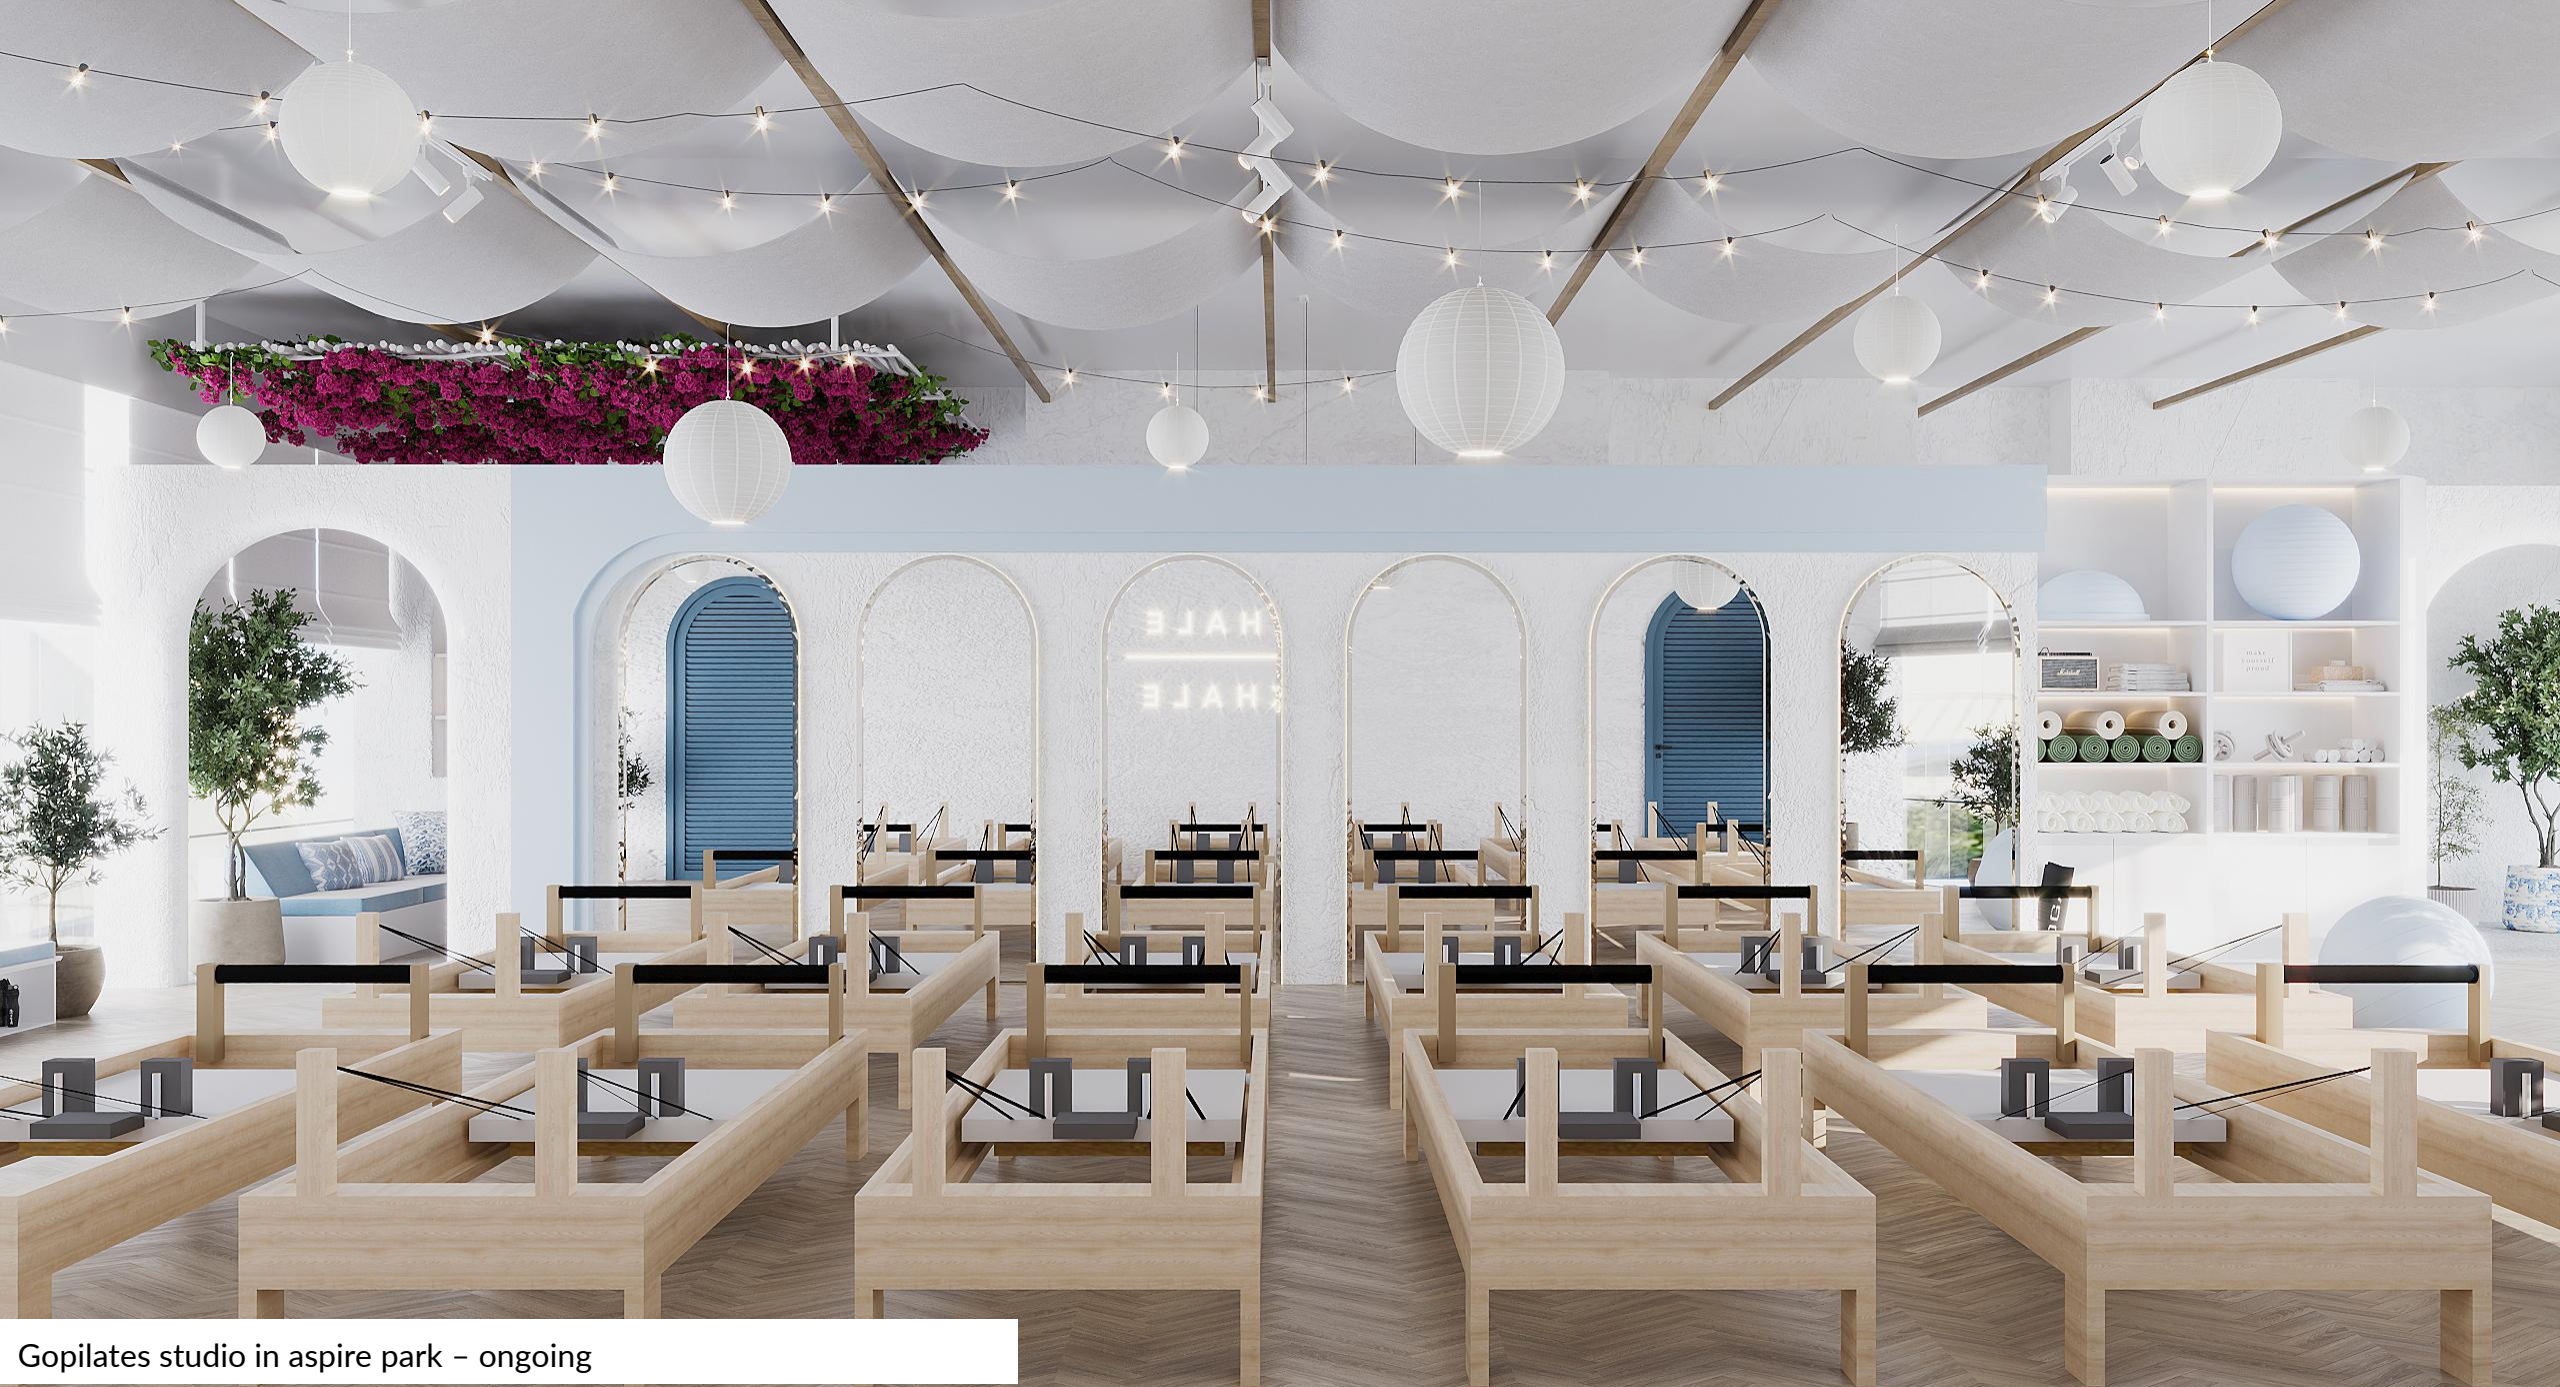

Born and brought up in Kerala, India and later living in London and Qatar, has given me the opportunity to travel and see many cultures and ways of living. This most definitely trickles down into my design philosophy.

DBR studio was launched after I moved to Qatar in 2019 in the middle of the pandemic, with a growing demand for better interior spaces in Doha as we started spending more and more time indoors.
